

### **Big Idea**

We all want and need for God to do miracles in our life. Often times we don't understand how God works and it can be easy to get consumed with doubt. Before we know it, we can give up on believing that God will ever do a miracle. It's in those times that we must decide not to believe in what we see with our natural eyes, but instead believe in the words of God and trust that Jesus is faithful, and his word is true. It's time to believe again!

How do we receive a miracle?

- **Believe in who Jesus is.** God isn't finished, we must believe again.  
"I am the resurrection and the life. He who *believes* in me will live, even though he dies; and whoever lives and *believes* in me will never die. Do you *believe* this?" John 11:25-26
- **God always does the right thing, even if we don't understand.** The more you know him, the more you trust him.
- **Start living again.**

*Psalm 9:10 Those who know the Lord, trust him.*

Death Valley is a desert in California which is one of the hottest, driest, desolate places on the planet. It only gets two inches of rain per year. But, in 2005 it experienced an unprecedented amount of rain and something special happened. A dry desert came to life and bloomed with thousands of beautiful flowers. Death Valley is not dead, it's only dormant. Right beneath the surface are the seeds of possibilities, just waiting for the right conditions. What you might call Death Valley, actually has seeds of possibility, right under the service that God wants to bring beauty to. Problems are the soil in which miracles grow.

*Instead of believing what we see, let's choose to believe what Jesus said.*
